COOK'S SECRETARY SAYS LOOSE DUNKLE STORY FALSE

Gives Positive Denial to Report That Data Sent to Copenhagen Had Been "Doctored" And As- serts He Made Report Under Dictation

(By Associated Press.)
COPENHAGEN, Dec. 9.—Dr. Torp, rector of the University of Copenhagen, said tonight that the charges published in New York against Cook were based upon pure fabrication. Nevertheless, I accept the offer to examine the documents prepared by Loose and Dunkle, which the Times agreed to send to Copenhagen.

Walter Lonsdale, secretary to Cook, who brought the explorer's records to Copenhagen, also declared the accusations against Cook totally unfounded. He said papers delivered to University of Copenhagen contained the original observations made by Cook on his expedition without alteration.

Lonsdale said the explorer's report was founded on the dictation by Cook to him, no other person having anything to do with it. Loose and Dunkle, Lonsdale added, were guests at the Waldorf-Astoria when Cook was there but the explorer's acquaintance with them was slight.

COOK'S LAWYER QUITS.

NEW YORK, Dec. 9.—Dr. Frederick Cook's personal lawyer, Henry Wack, served declaration on his client.

Wack refused tonight to confirm, or deny his withdrawal, but it is affirmed, by competent authority that, after a consultation with his partner, Wack wrote Cook, November 30, that he must beg his to seek legal advice elsewhere.

"I haven't the remotest idea," said Wack tonight, "where Cook is keeping himself, or why he persists in seclusion when his presence is vital to his own interests, and that of his friends. I have heard that he is in Brooklyn in a sanitarium, Maine, Philadelphia in an asylum, and that personal friends believe him abroad.

One thing, however, is certain, there is an agreement tonight for the first time among those who have always believed Cook discovered the North Pole, with those who never believed, and those who had been waiting to be informed by disinterested authority. Partisans and skeptics alike concede certain cardinal facts which admit of no argument, namely: Cook sent his records to the University of Copenhagen for inspection by the commission.

UNCLE SAM'S NAVY STANDS NECK AND NECK WITH THAT OF GERMANY

(By Associated Press.)
WASHINGTON, Dec. 7.—The navy year book for 1909 compiled by Pittman Pulsifer, clerk of the Senate Committee on naval affairs, shows the race for second place among navies of the world to be close between the United States and Germany.

Of fighting ships, (battleships and armored cruisers) built, building and provided for, this country has 47, and Germany 46, but the aggregate tonnage for the United States 650,241 as against 654,334 for Germany. Germany, however, has a larger number of small vessels than this country and her total tonnage is 820,692, as against 785,687 for the United States.

Germany's superiority in respect to all vessels is due largely to her torpedo destroyers, of which she has 107 as against 52. Germany also outnumbers us in the matter of large guns, her number being 298 as against 183 for the United States.

Great Britain is shown to possess 104 fighting ships with a total tonnage of 1,150,880. France has 46 fighting vessels but her tonnage is more than one hundred thousand tons less than that of either the United States or Germany. This difference is due to the fact that an exceptionally large proportion of her ships are cruisers. American vessels are the only ones carrying 12 inch guns and German vessels, the only ones carrying 11 inch guns.

With the passing of Harriman, Lovett was elevated to the position of controller.

SURGEON GENERAL IN HIS RE- PORT BLAMES INSPECTORS FOR UNSANITARY CONDITION.

(By Associated Press.)
WASHINGTON, Dec. 9.—Attention to plague conditions on the Pacific coast is given by the Surgeon General of Public Health and Marine Hospital service in his annual report made public today.

No cases of human plague occurred in San Francisco in 1909, he says, and there were only four cases of rat plague. The effect of its inspections by the service in San Francisco, he continues, is to blame for San Francisco's unsatisfactory sanitary conditions.

The service has been engaged in a war of extermination on rats and ground squirrels and while many squirrels have been killed on the coast, only in Costa Rica country, was serious condition found among them.

(By Associated Press.)
BOSTON, Dec. 9.—The Jeffries Johnson bout will be held in Salt Lake City and will be no fake was "Tex" Rickard's positive declaration today.

"I am sick of this fake talk," said Rickard, "and I will give anyone \$5,000 if he will show me anything crooked in the arrangements.

"I knew the day before the bout was opened that Johnson would star by me and Jeffries would be with Jack Gleason, so we got together and talked the matter over and came to an understanding. Coffroth told Gleason to go ahead and come in with me. That left Coffroth out of the whole affair and I want the public to know he has nothing to do with it.

"I will not have to fix any official in Salt Lake to pull the bout off there. Bankers, brokers and business men of the city want me to hold it there and have given me all assurance necessary that it would not be interfered with. Salt Palace, where the bout will take place, will with some alterations, hold 20,000 people."

TWO SOCIAL TRAGDIES END IN MURDER AND SUICIDE

Dr. Woods, Prominent in 'Frisco's Select Set, Falls Victim of Dead- ly Attack by Gabriel Jacobs Who Later Ends Life by Suicide

(By Associated Press.)
OAKLAND, Dec. 9.—As a result of two domestic tragedies tonight, Dr. Eugene Woods and Fred Schenck are dead, while Gabriel Jacobs and Mrs. J. A. Jones are dying from bullet wounds. In each case the murder, or attempted murder, was followed by suicide, and one victim and one assailant, died instantly.

Dr. Woods was stepping from his automobile tonight when Gabriel Jacobs, the husband of the woman named by the doctor's wife in her suit for divorce, fired a few days ago, crossed the street in front of the machine, and shot the physician through the heart. Jacobs raced around the corner and as the crowd closed in, raised his weapon and sent a bullet crashing through his own head. He cannot recover.

Upon returning tonight to the place where he roomed, about an hour after the shooting of Woods, Frank Schenck, entering the dining room where Mr. and Mrs. J. A. Jones were seated. He demanded that Mrs. Jones tell him when his wife from whom he had been separated for some time, was. As Mrs. Jones replied Schenck opened fire with two revolvers. Mrs. Jones fell to the floor with a bullet in her stomach, dying immediately. Her husband escaped the fusillade without injury.

Schenck then turned the weapons upon himself and blew the top of his head off. Schenck, it appeared, returned under the impression that Mrs. Jones was responsible for his domestic troubles.

CHINA ENTERS POINTED PROTEST AGAINST BIG BEAR OF THE NORTH

(By Associated Press.)
ST. PETERSBURG, Dec. 9.—A detailed protest of China against the Russia, memorandum having been sent to the powers in October, has been received here. In it China declares preliminary to a demand by China for that special administration of affairs at Harbin and other points in Manchuria does not concern Russia.

The protest also contends that the agreement of 1896 between China and the Russo-Chinese bank, creating the Chinese Eastern railway, as well as the Harbin agreement last May, yielded no administrative rights to Russia. On the contrary, the contract of 1896 entrusted the defense of the railroad to China.

It is thought the protest may be received here. In it China declares preliminary to a demand by China for that special administration of affairs at Harbin and other points in Manchuria does not concern Russia.

M. Kokovostoff, Russian minister of finance, has long urged such withdrawal which would save the government \$50,000,000 annually, but the war and foreign offices objected.
